NEW ORLEANS 13, LOUISIANA

Vol. 11, No. 9.

March 1953.

CHANGE IN FIELD LIBRARY SERVICE

Dr. Shaw, Librarian of the Department of Agriculture, has found it necessary to close the general branch libraries and to provide for field library service through contractual agreements with college or university libraries.

After the first of April, Oklahoma A. & M. College Library will provide library service to Department people in Arkansas, Louisiana, New Mexico, Oklahoma, and Texas. Mr. Edmun Low is the librarian.

The type of service will remain about as it is. Periodicals will be routed to you; you may borrow books and bulletins and ask for reference service; an accession list of new publications will no doubt be issued; Mr. Low will probably continue packet and book-of-the-month projects.

We shall try to make the transition as smoothly as possible, but while records and publications are being transferred, there will naturally be some delay in getting things to you.

Some of the publications are to remain at Southern Forest Experiment Station as a station library. Consequently, you will be asked to return certain items to New Orleans. With the exception of thost specific items, and beginning on March 30, mail everything to

The Library
Oklahoma A. & M. College
Stillwater, Oklahoma

It has been a pleasure to work with you during the past eleven years. I have deeply appreciated the promptness with which you have returned books and kept periodicals moving along. To a considerable extent, the efficiency of field library service is determined by the library patrons themselves, and I am sure you will give Mr. Low your continued cooperation.

I also want you to know how much I have valued the thoughtful, courteous notes of appreciation you have sent to me through the years. I am to be in the Department Library in Washington, and I shall continue to be interested in the fine work you field people are doing.

Helen Boyd, Librarian

SELECTED BULLETINS

Agronomy

- "Corn Fertilizer-Spacing-Variety Studies near College Station, 1949-51." Tex. Agr. Expt. Sta. Progress Rpt. 1538, 2p. 1953. 100 T31P 1538
- "Cotton Variety Tests Results, 1952." Okla. Agr. Expt. Sta. Mineo. Cir. M-241, 2p. and tables. 1953. 100 Ok4M M-241
- "Darset, A Combine-type Darso." Okla. Agr. Expt. Sta. Bul. B-391, 6p. 1953. 100 Ok4B 391
- "Fescue Grass and Legumes for Soil Improvement and Forage Production at the Blackland Station." Tex. Agr. Expt. Sta. Prog. Rpt. 1543, 3p. 1953. 100 T31P 1543
- "Hairy Vetch, Willamette Vetch and Dixie Wonder Peas As Soil-Improving Crops for Corn on Lufkin Soil." Tex. Agr. Expt. Sta. Prog. Rpt. 1531, 2p. 1953. 100 T31P 1531
- "Hybrid Corn Strains Recommended for 1953." Okla. Agr. Expt. Sta. Bul. B-389, 3p. 1953. 100 Ok4B B-389
- "Oklahoma 301, A New Hybrid Corn for Oklahoma." Okla. Agr. Expt. Sta. Bul. B-390, 6p. 1953. 100 Ok4B B-390
- "Performance Tests of Corn Varieties and Hybrids, 1952." Okla. Agr. Expt. Sta. Misc. Pub. MP-29, 23p. 1953. 100 Ok4Mp MP-29
